COLOUR MULTIFUNCTIONAL
FOR A3 FORMAT

THE A3 COLOUR
ALL-ROUNDER
FOR **DEMANDING**
WORK GROUPS.

 **KYOCERA**
Document Solutions

POWER UP YOUR TEAM WITH THIS EFFICIENT MULTIFUNCTIONAL.

The TASKalfa 2551ci has been designed to meet the demands of ambitious work groups with high expectations concerning the functionality and quality of their office equipment. Reliable and user-friendly, it provides you with all the capabilities you need to maximise the efficiency of your team's document management. The renowned long-life components incorporated in these devices make them exceptionally reliable and reduce the downtime to an absolute minimum.

This device offers you all the functions you can expect from a sophisticated MFP. It prints up to 25 pages per minute in exceptional colour and monochrome quality. It also copies and scans documents of A6–A3 and can be supplemented with a fax function. All these functions can quickly and easily be accessed via the large touch screen with an intuitive menu structure. Moreover, the various paper handling and finishing options allow you to increase the standard paper capacity of 1,100 sheets to 4,100 sheets. In addition, you can have your documents stapled and punched by the 1,000-sheet finisher.

INTEGRATE YOUR DEVICE INTO YOUR PRESENT WORKFLOW.

HyPAS™, KYOCERA's open software development platform, allows you to integrate your new device into your existing business workflow by customising it with integrated software applications that are designed to meet your individual document imaging needs.

It also works if you use ordinary business applications like Document Management Systems (DMS) or Enterprise Resource Planning (ERP). It is quick and easy to set up, and can be configured directly from the control panel of the device.

NO MORE WORRIES ABOUT DATA SECURITY.

To save your data from potential security risks, we equipped the TASKalfa 2551ci with IPsec and PDF encryption functionality as standard. There are helpful security features that you may add to your MFP to ensure that your most sensitive data is safe. One of them is the Data Security Kit, which effectively deletes and

overwrites all data stored on the hard disk, thereby making it impossible to reconstruct the files. Another convenient way to prevent unauthorised access of the data is the Card Authentication function. With this function, all users have to identify themselves with their card before being allowed to use the device.

TURN YOUR PAPER DOCUMENTS INTO DIGITAL FILES.

The TASKalfa 2551ci renders the digitising process as easy as it can possibly get. You can select whether you want to scan the document to a server, an email address, a folder or a USB device via the control panel. You can choose the file format (PDF, JPEG, TIFF or XPS) and opt for the almost lossless compression of your data. The 175-sheet one-path duplex document pro-

cessor carries out the scanning task at an amazing rate of up to 100 ipm. The optional OCR technology turns scanned documents into text documents. This not only allows you to search the scanned document; you can also edit and share it. Another very convenient feature of this device is that it scans documents down to A6 format.

PRODUCT HIGHLIGHT

You can access all settings for printing, copying and scanning as well as the optional fax function from the new colour touch panel. The large size of the panel and its movability ensure that your employees can easily select the functions they want to use. The panel features:

- > A CUSTOMISABLE HOME MENU SCREEN.
- > A USER-FRIENDLY DESIGN.

PAPER HANDLING SOLUTIONS TO ANSWER ALL YOUR NEEDS.

To make sure your device perfectly corresponds to your needs, you may choose to add convenient handling options. You can augment the paper capacity to 4,100 sheets and add a 1,000-sheet finisher for stapling and, optionally, punching.

1

DOCUMENT PROCESSORS

There are 3 different document processors you can choose for your device:

- > DP-773: 50-sheet automatic reversing document processor.
- > DP-770(B): 100-sheet automatic reversing document processor.
- > DP-772: 175-sheet dual-scan document processor.

2

FINISHER

You can add the optional DF-770(D) 1,000-sheet finisher that staples up to 50 sheets and has an optional punching unit.

3

PAPER FEEDERS

To allow your device to master the high workloads, you can complement it with paper feeders up to a maximal capacity of 4,100 sheets:

- > PF-791: 2 x 500-sheet paper drawer.
- > PF-810: 2 x 1,500-sheet paper drawer.

PREMIUM COLOURS FOR YOUR DOCUMENTS.

TAKE ADVANTAGE OF OUR **ADVANCED COLOUR TECHNOLOGY.**

The advanced colour technology embedded in this TASKalfa device ensures that all your documents have an optimal colour gradation, extra-sharp contrast and smooth shades. The device also comes with up to 6 selectable colour tables for you to

define the colours that match those of your corporate design or those produced by other printers in your business. Once the device has been adjusted to the right colour table, you will get a consistent and accurate result every time.

ECONOMY

- > Our long-life printer drum lasts for at least 200,000 prints.
- > High-capacity toners.
- > Highly reliable thanks to long-life components.

ENVIRONMENT

- > Smart power allocation saves energy.
- > Long-life components save resources.

USABILITY

- > Customisable home screen to meet all users' needs.
- > Improved easy-to-operate printer driver.
- > Up to 4 USB hosts for devices, such as IC Card Readers, USB keyboards and USB devices to scan to or print from.
